SANDEEP PARWAL | STEM@SandeepParwal.IN

Entrepreneurship Leadership | Ecosystem Building | Business Strategy & Capital Alignment

Sandeep Parwal is an entrepreneur and financial services leader with a longstanding commitment to innovation, technology-enabled problem-solving, and building scalable solutions to real-world challenges. As the Founder and Promoter of SPA Group, established in 1995, he has built a diversified financial services organisation that integrates research-backed insights, data-driven decision-making, and emerging technologies to advance financial systems and improve operational efficiency.

A Chartered Accountant from the Institute of Chartered Accountants of India, Sandeep began his career in financial advisory, taxation, and regulatory compliance before establishing SPA Group as a comprehensive financial services platform. Under his leadership, the group has expanded across wealth management, investment banking, corporate finance, fintech-oriented solutions, and allied services. Today, it serves approximately 250,000 customers and manages assets worth over CHF 3.7 billion (approximately INR 40,000 crore) across India.

Sandeep's entrepreneurial journey reflects the power of combining analytical thinking, financial expertise, technological innovation, and strategic execution to transform ideas into practical, scalable solutions. His vision for the future centres on harnessing fintech, predictive analytics, and digital innovation to build secure, transparent, adaptable, and sustainable systems that respond to evolving societal and economic needs.

Aligned with the broader goals of STEM education and youth empowerment, his professional experience offers a valuable perspective on bridging the gap between knowledge and application. His journey underscores the importance of nurturing curiosity, critical thinking, problem-solving, digital fluency, and an entrepreneurial mindset among young people—equipping the next generation to move beyond learning concepts and toward designing solutions that create meaningful impact.

Through his experience in building and scaling an innovation-led enterprise, Sandeep brings a practical understanding of how STEM disciplines can intersect with entrepreneurship to address complex challenges and unlock new opportunities. His global outlook and commitment to continuous learning, adaptation, and innovation resonate with STEMx's ambition to foster a future-ready generation of thinkers, innovators, and entrepreneurs who can translate scientific and technological knowledge into solutions for communities and society at large.
